Introduction

GLiTalk Introduction

01

Device Specifications

Equipped with a 10.1-inch dual-screen,
providing clear visibility for both users.

02

Problem Solved

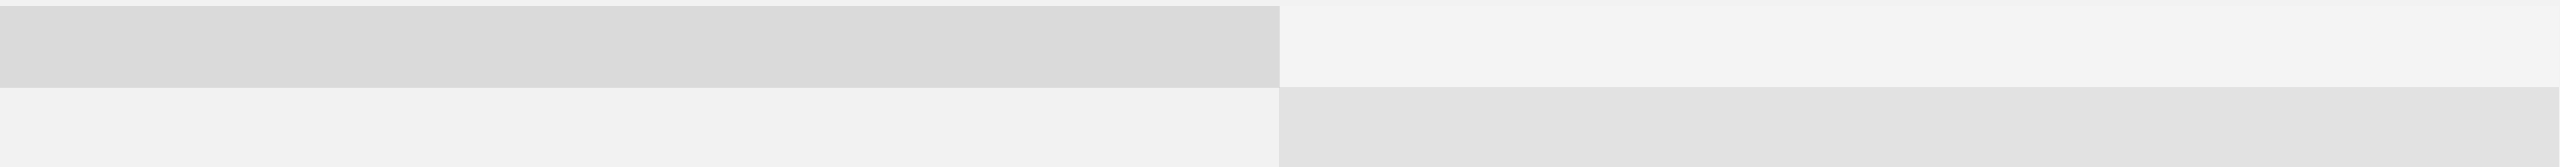

Effectively tackles the issue of global
communication barriers, breaking
down language walls.

03

Application Scenarios

Plays a crucial role in hotels,
restaurants, and other service-oriented
environments.

02

Challenges

Language Barriers

Consequences

Severity of the Issue

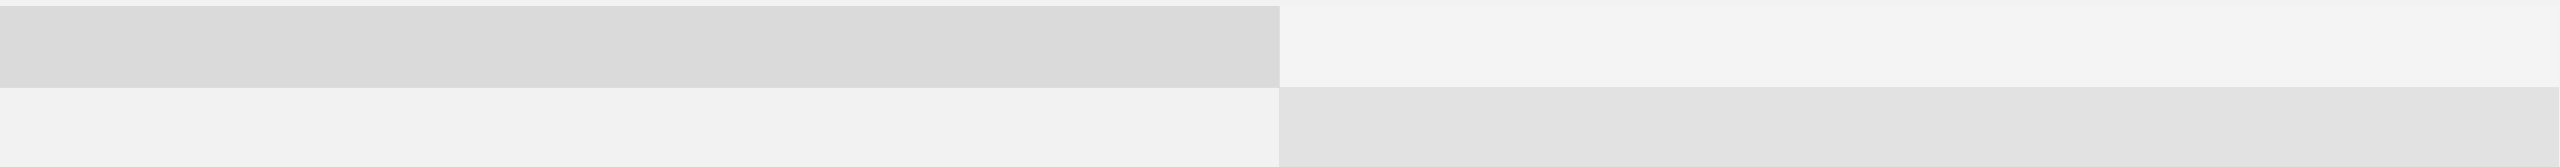

70% of travelers face communication problems during international travel, impacting their experience.

Leads to misunderstandings and customer dissatisfaction, affecting service quality.

Impact Scope

Language barriers not only affect individuals but also tarnish corporate images and economic benefits.

03

Solutions

Device Advantages

01

Dual-Screen Design

Allows both parties in a conversation to clearly see the translated content.

02

Multi-Language Support

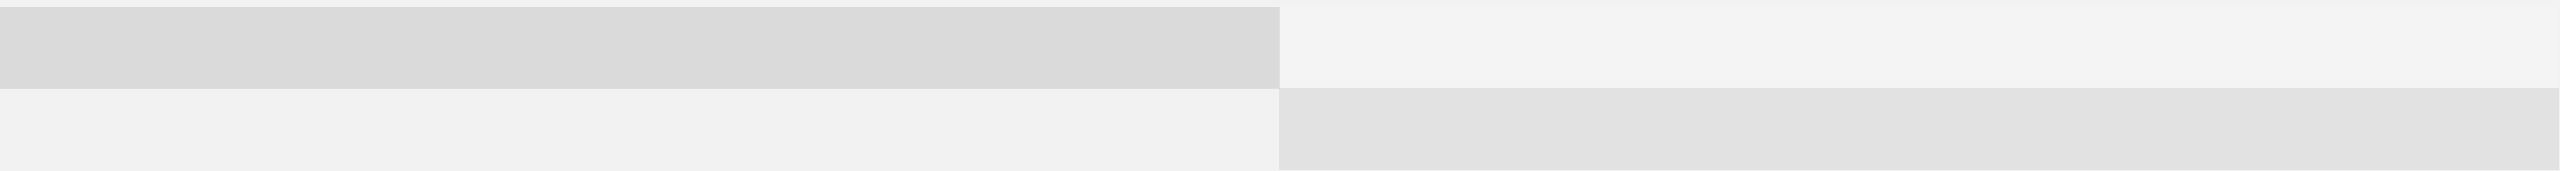

Supports a wide range of languages to meet diverse user needs.

03

Real-Time Translation

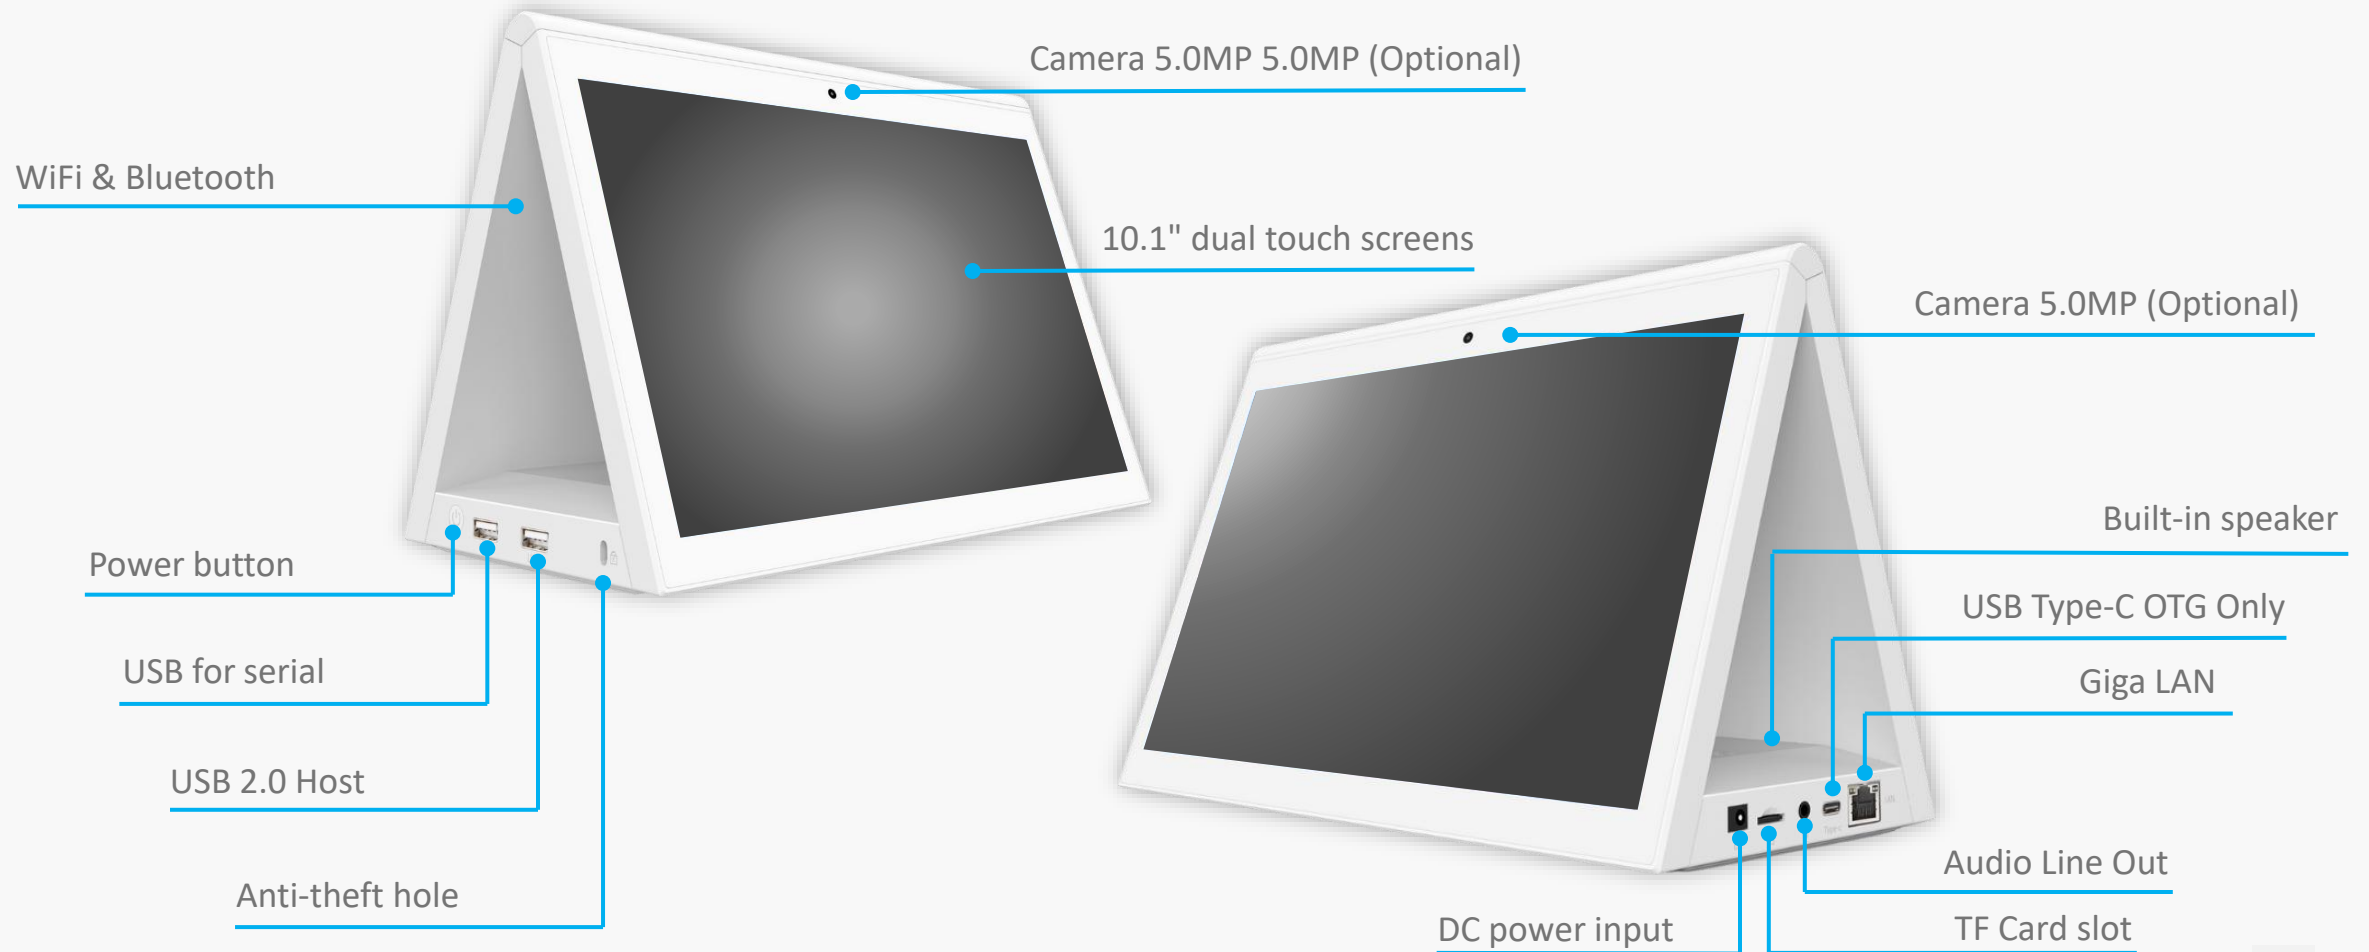

Provides instant translation to ensure seamless communication.

04

Hardware

Specification

Video

Not only a translator!

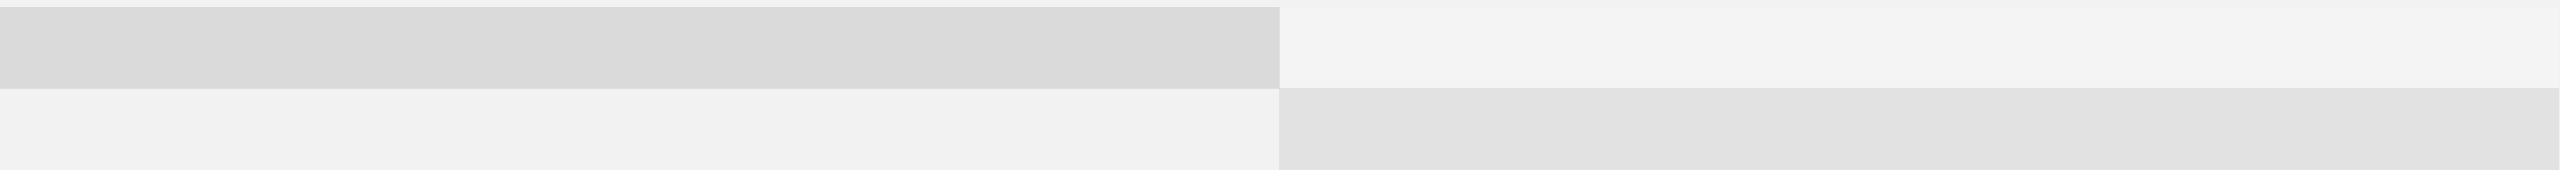

A compact and small footprint design, sleek look, and premium appearance, smooth touch response, plus considerate input/output ports, GLiTalk is also your smart interactive Android device, besides the accurate translation support.

Device Highlights

- 10.1" dual touch displays
- USB, USB-C OTG, TF Card slot, LAN, Audio Out, WiFi & Bluetooth, Built-in speaker
- optional 5MP camera (on 2nd screen)
- Anti-theft design for public spaces
- Reliable for 24/7 indoor operations

05

Software

Software Features

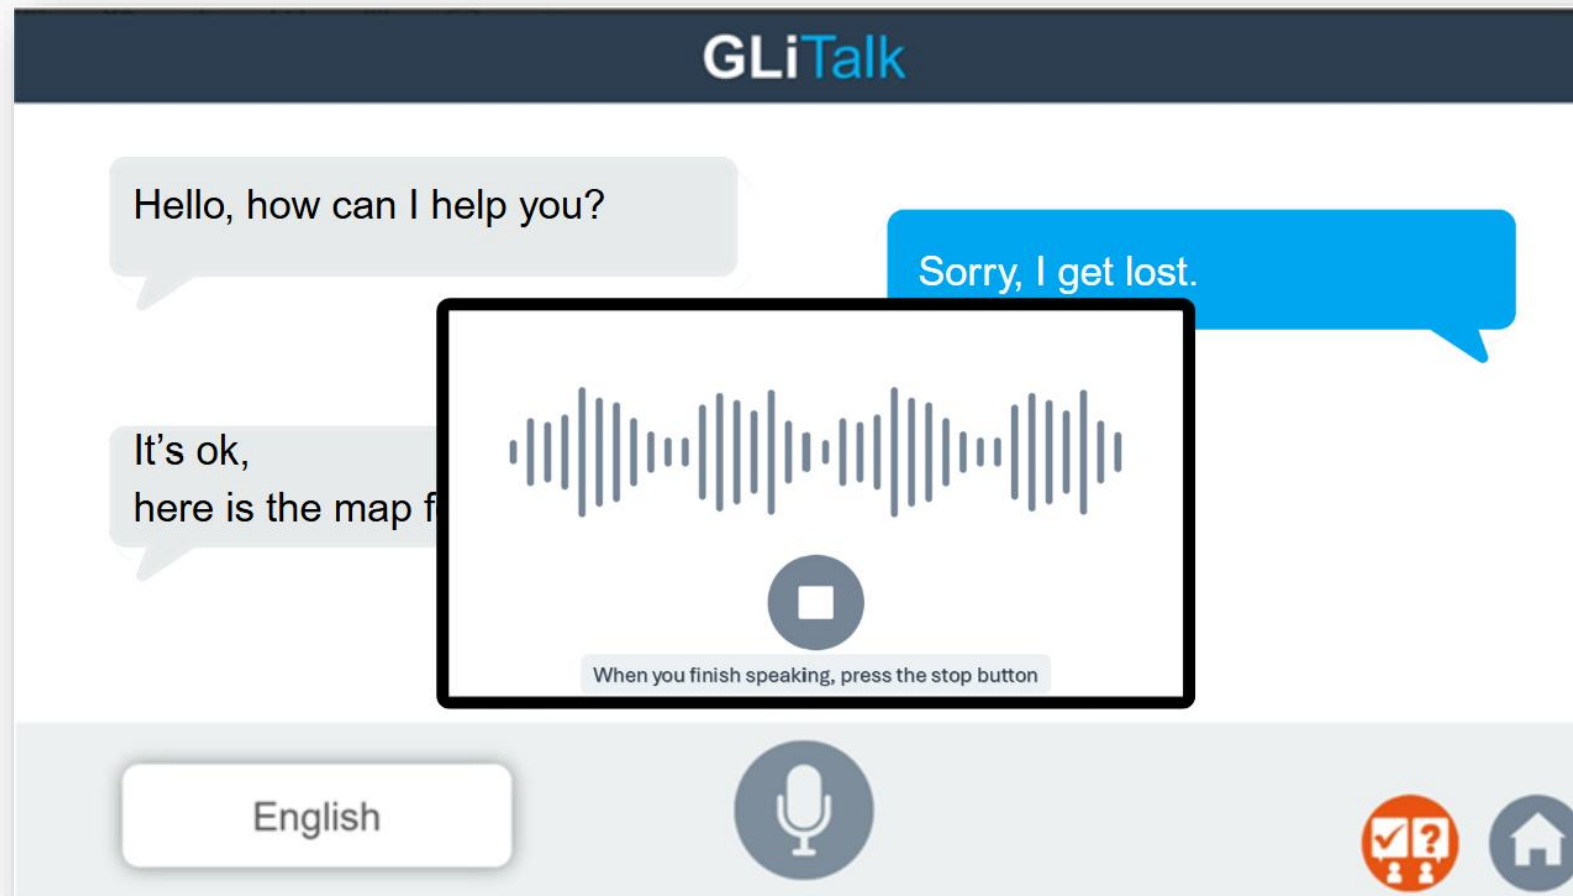

Standard Mode – Google Translate for general use.

Advanced AI Mode – OpenAI GPT-powered translations with custom phrases.

Hotkey Shortcuts – Pre-set answers for common.

GLi Store – Add-on apps like tourist guides or concierge scripts.

Software - Passenger Screen

Dialogue Translation

Offers real-time translation with a clear interface. A microphone icon signals when to start speaking, and a stop button indicates when to end. Translates speech into the chosen language.

The **HELP Key** can anytime reach the manager when necessary.

Software - Staff Screen

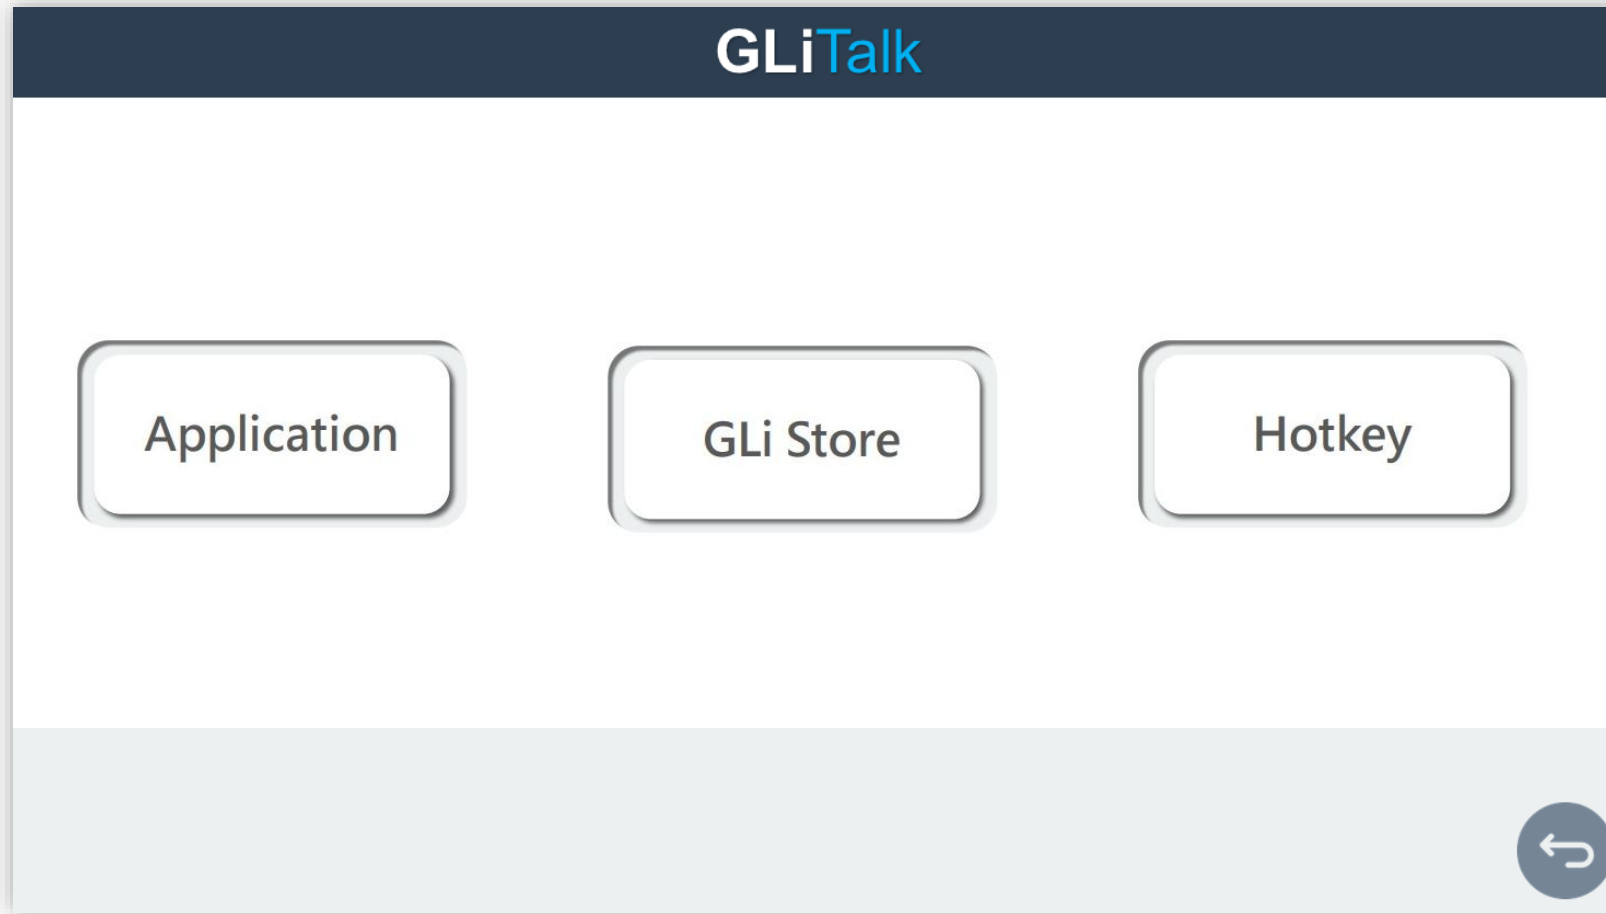

Dialogue Translation

Similar to the passenger screen but tailored for staff use. Displays the same conversation translation interface, translating customer responses into the staff's preferred language.

The **Setting Key** allows the staff to set it as per request.

Software - Staff Screen

System Settings

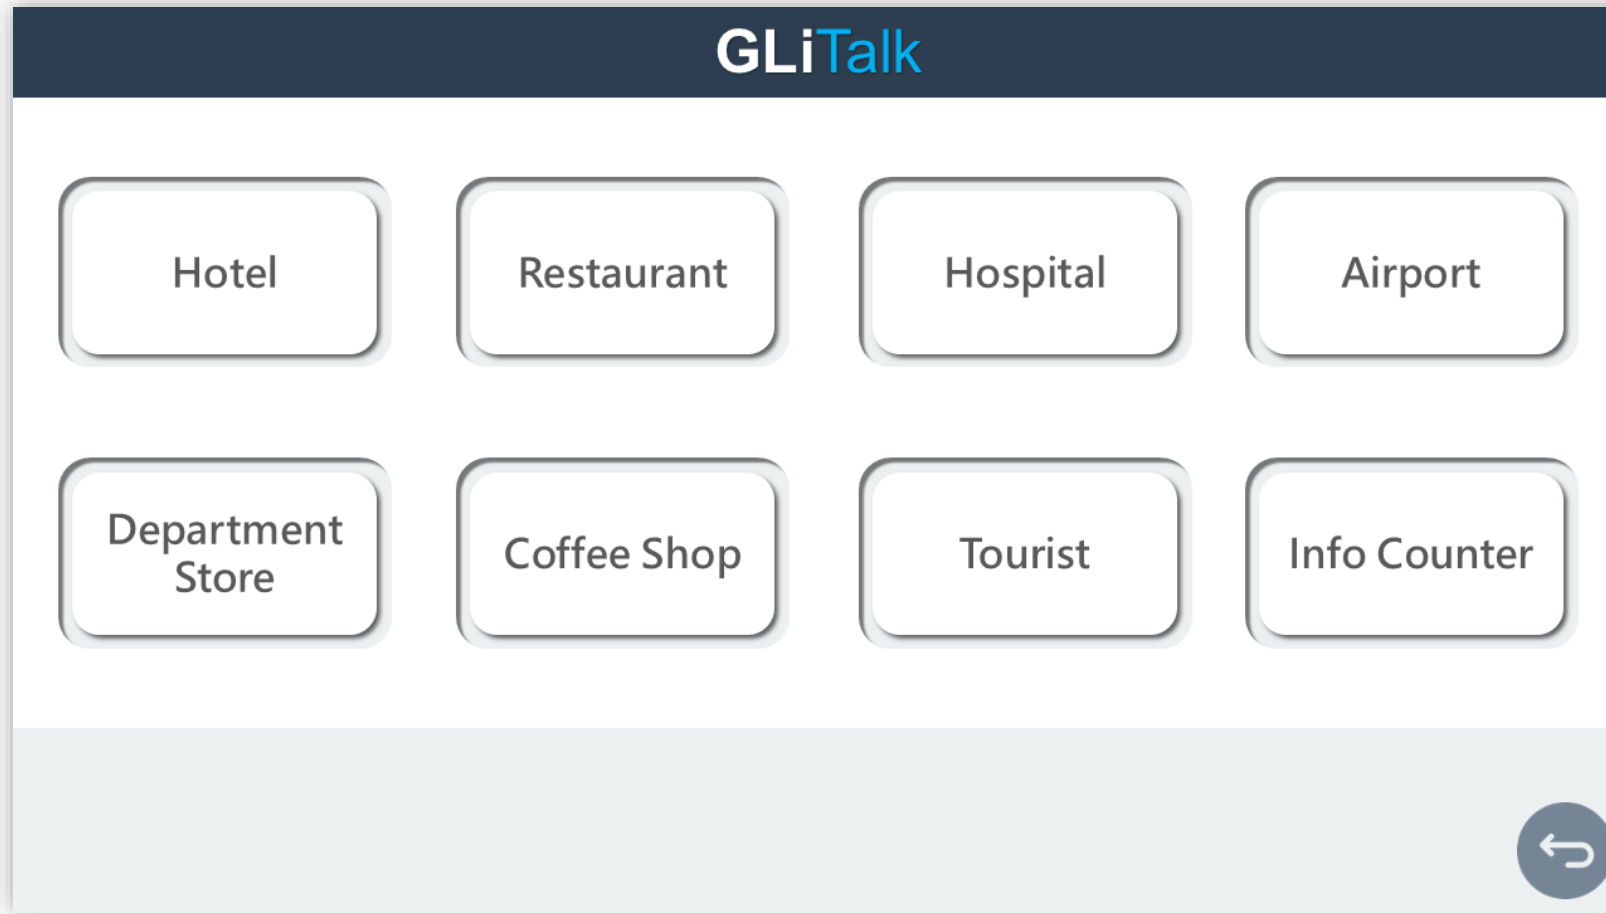

Application

GLi Store

Hotkey

Previous Key allows the staff to get back to previous page.

Software - Staff Screen

System Settings

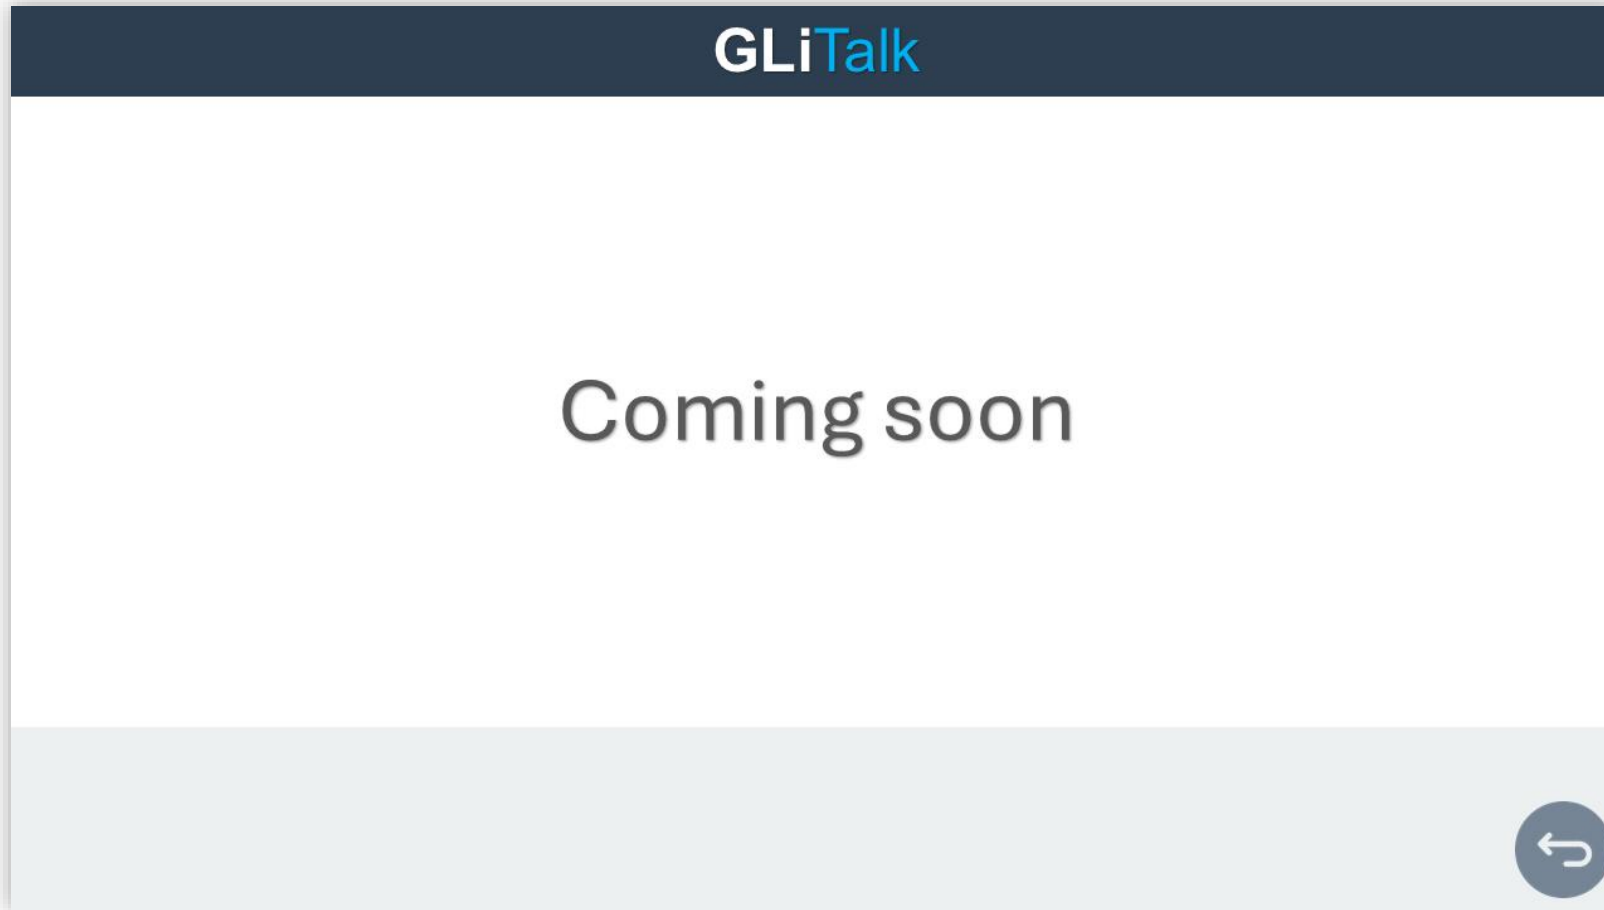

Application

As an upgraded version with OpenAI, paid as use, allows staff to customize the application for specific contexts (e.g., Hotel, Restaurant, Hospital, Airport, Department Store, Coffee Shop, Tourist Info Counter), optimizing translation accuracy by using vocabulary tailored to the selected environment.

Upgrade, as you like!

Our optional AI Translator is powered by OpenAI GPT technology. It understands over 50 languages with human-like accuracy and helps staff communicate seamlessly with international guests — improving customer satisfaction and service efficiency.

Software - Staff Screen

System Settings

GLi Store

A placeholder for the upcoming GLi Store, where staff can access additional, newly developed features through a paid add-on system.

Pay and Use!

We understand you would like to have more applications to suit daily use.
Here in **GLi Store**, you can shop and use it easily.

GLiTalk

Hotkey Configuration

Manage your hotkey for a faster workflow

[Current Hotkey](#) [Add New Hotkey](#)

Current Hotkey

- Breakfast Time / Place
- Hotel Facilities
- Wi-Fi Password

Add New Hotkey

Action Name

Check-out Time

Action Content

Check-out Time: Standard check-out is at 12:00 PM (or adjust based on hotel policy, e.g., 11:00 AM).

[Save Hotkey](#)

System Settings Hotkey

Enables staff to manage keyboard shortcuts for faster workflows. Displays current hotkeys (e.g., Breakfast Time/Place, Hotel Facilities, Wi-Fi Password) and allows adding new hotkeys, such as "Check-out Time" with customizable content. Includes options to save and configure hotkeys.

After setting

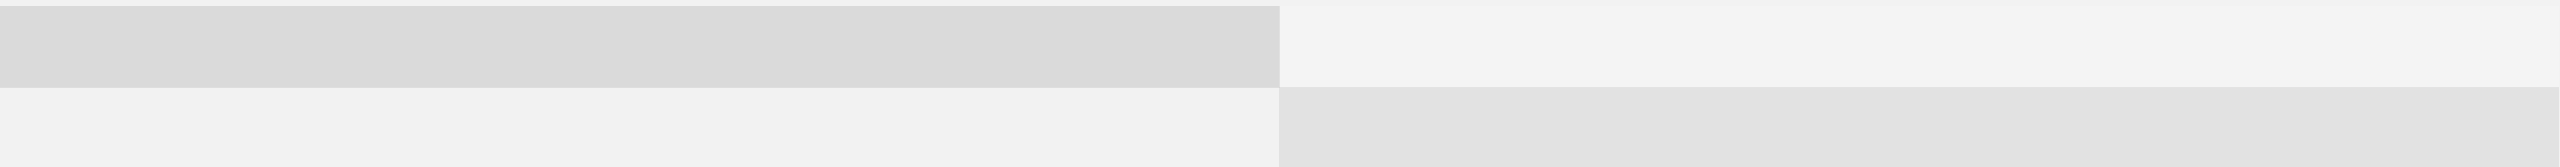

Software - Passenger Screen

Homepage

Displays the main interface for travelers, offering language selection (e.g., 繁體中文, English, 日本語, Español, etc.) and quick access to essential hotel information such as check-out time, breakfast details, hotel facilities, and Wi-Fi password for hotel and hostel environment use.

06

Advantages

Feature Highlights

Real-Time Translation

Offers quick and accurate translation across multiple languages.

Customizable Shortcuts

Users can set up shortcuts to enhance operational efficiency.

Subscription-Based Functions

Provides subscription services for continuous updates and new features.

System Settings

Flexible system settings to cater to individual preferences.

Product Strengths

Improved Efficiency

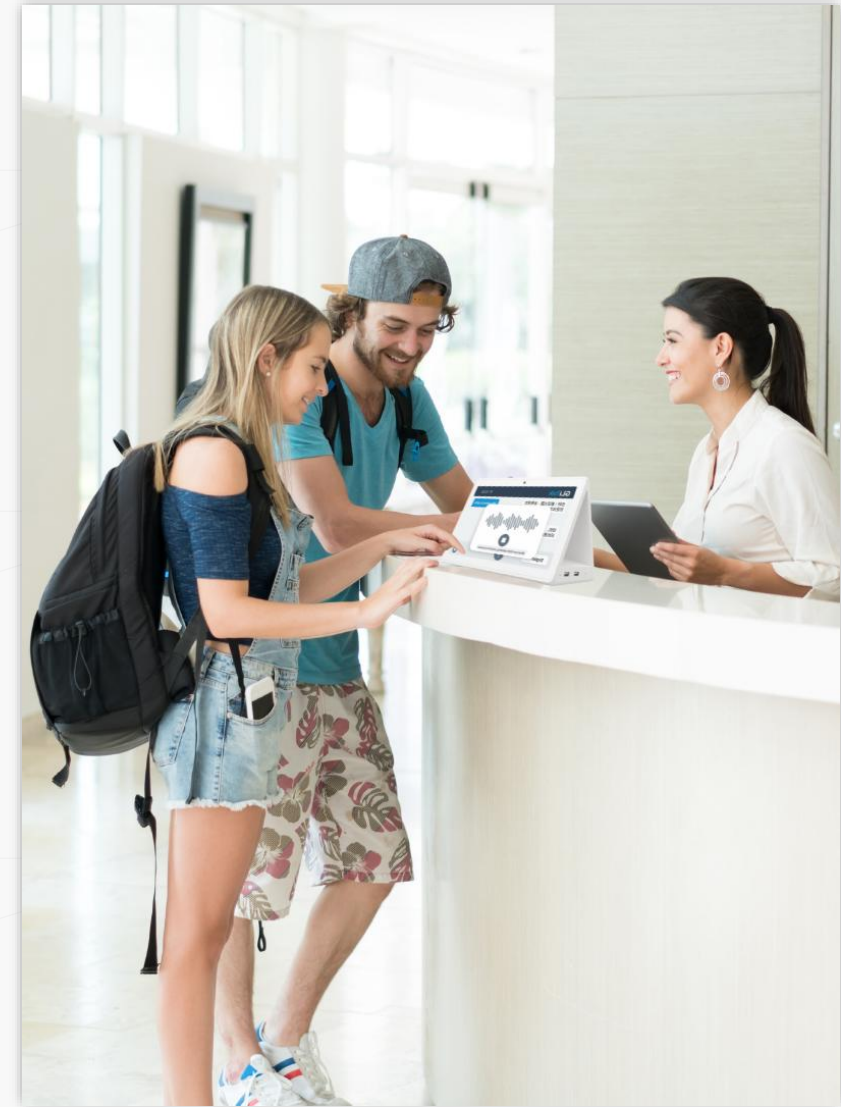

Significantly boosts communication efficiency and saves time.

Multi-Functionality

Integrates multiple functions to meet the needs of various scenarios.

Customer Satisfaction

Enhances customer satisfaction and overall service quality.

Why GLiTalk

Friendly pricing support – low entrance, and volume discounts available.

Return on Investment – Save month fee by reducing multilingual staffing needs.

Professionalism – Improve guest satisfaction scores and online reviews.

Tailored – Support regional customization.
