Introduction

GLiTalk Introduction

01

Device Specifications

Equipped with a 10.1-inch dual-screen, providing clear visibility for both users.

02

Problem Solved

Effectively tackles the issue of global communication barriers, breaking down language walls.

03

Application Scenarios

Plays a crucial role in hotels, restaurants, and other service-oriented environments.

02

Challenges

Language Barriers

Severity of the Issue

70% of travelers face communication problems during international travel, impacting their experience.

Consequences

Leads to misunderstandings and customer dissatisfaction, affecting service quality.

Impact Scope

Language barriers not only affect individuals but also tarnish corporate images and economic benefits.

03

Solutions

Device Advantages

01 Dual-Screen Design

Allows both parties in a conversation to clearly see the translated content.

02 Multi-Language Support

Supports a wide range of languages to meet diverse user needs.

03 Real-Time Translation

Provides instant translation to ensure seamless communication.

04

Not only a translator!

A compact and small footprint design, sleek look, and premium appearance, smooth touch response, plus considerate input/output ports, GLiTalk is also your smart interactive Android device, besides the accurate translation support.

Device Highlights

- 10.1" dual touch displays
- USB, USB-C OTG, TF Card slot, LAN, Audio Out, WiFi & Bluetooth, Built-in speaker
- optional 5MP camera (on 2nd screen)
- Anti-theft design for public spaces
- Reliable for 24/7 indoor operations

05

Software

Software Features

**Standard Mode** – more than a hundred languages to choose from and use for general use.

Considerate Design – intuitive icons and notes lead the user with ease.

Advanced AI Mode – Optional AI support for application preference.

Hotkey Shortcuts – Pre-set answers for common.

GLi Store – Add-on apps like IP phone, advertising on screen, library and others.

Software - Passenger Screen

GLiTalk

Hello, how can I help you?

Sorry, I get lost.

It's ok,
here is the map f

When you finish speaking, press the stop button

English

Dialogue Translation

Offers real-time translation with a clear interface. A microphone icon signals when to start speaking, and a stop button indicates when to end. Translates speech into the chosen language.

The **HELP Key** can anytime reach the manager when necessary.

Software - Staff Screen

GLiTalk

您好，請問有什麼可以幫您？

抱歉，我迷路了。

沒關係，這個地圖給您。

中文 ∨

Dialogue Translation

Similar to the passenger screen but tailored for staff use. Displays the same conversation translation interface, translating customer responses into the staff's preferred language.

The **Setting Key** allows the staff to set it as per request.

System Settings
System Configuration

Business owners can set email and video on this page to provide timely support to the visitor if the Translator needs more assistance from the manager or supervisor.

Upgrade, as you like!

Our optional AI Translator and useful gadgets at GLiStore, besides supporting human-like accuracy to help staff communicate seamlessly with the visitor in front— improving customer satisfaction and service efficiency, but also making the place where it is deployed with GLiTalk more functional by friendly technology applied.

Pay a little, enjoy what you want.

Software - Staff Screen

System Settings
GLi Store

Various gadgets at the GLi Store will be uploaded gradually, including an IP phone, advertising on screen, a library, and others. Staff can access and download newly developed features through a paid add-on system.

Pay and Use!

We understand you would like to have more applications to suit daily use.
Here in **GLi Store**, you can shop and use it easily.
